37 CFR Part 1

Rules of Practice in Patent Cases; Fee for Filing a Request for Reexamination

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The Patent and Trademark Office is amending its rules of practice in patent cases to add a new fee for the filing of a request for reexamination of a patent and to provide for a refund if the request is denied. Public Law 96-517 of Dec. 12, 1980 authorizes reexamination beginning on July 1, 1981. Public Law 96-517 requires a person requesting reexamination to pay a fee established by the Commissioner of Patents and Trademarks. This amendment establishes the fee for filing a request for reexamination and the amount of any refund if the request is denied.

DATES: Effective date: July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. R. Franklin Burnett by telephone at (703) 557-3054 or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: This notice changes two rules to add an appropriate fee for requesting reexamination and to refund a portion thereof if reexamination is not ordered. 35 U.S.C. 41(g) requires 60 days notice in the **Federal Register** before a fee can take effect. 35 U.S.C. 41(d) requires that the Commissioner establish fees for services, such as reexamination, which will recover the estimated average cost to the Office of performing the service.

Background:

A notice of proposed rulemaking relating to the fee, and refund, as well as the procedures for reexamination, was published in the **Federal Register** on Jan. 13, 1981 at

46 FR 3162-3174 and in the Official Gazette on Feb. 17, 1981 at 1003 O.G. 36-47. An oral hearing was held on Apr. 16, 1981. This amendment relates only to section 1.21 on fees and section 1.26 on refunds. It is being issued separately to meet the 60-day notice requirement of 35 U.S.C. 41(g). The reexamination procedures will be the subject of a later amendment. There is no difference in the amount of the fee or refund between the final rule and the proposal.

Discussion of the Background and Major Issues Involved: Two written comments and one oral comment relating to proposed section 1.21(x) indicated that the fee of $1500 seemed excessive. One comment indicated that it should be $65, the amount of the current filing fee for a United States patent application. Several oral comments indicated the amount of the fee was appropriate. In response, it is not considered possible to charge only $65 for a reexamination because 35 U.S.C. 41(d) requires the Commissioner to set the fee for reexamination at a level which will recover the estimated average cost to the Office. The estimated average cost reported to the Congress, and still considered proper, is $1500 per reexamination.

Two written comments and one oral comment referred to proposed section 1.26(c). One written comment proposed the use of a percentage rather than a dollar amount in the rule wording. In response, it is felt that the wording using the actual dollar amount is clearer. Since the amount of the fee is expected to be changed infrequently, changing section 1.26 to follow a change in §1.21 would not be burdensome. One written comment and one oral comment indicated that a fixed fee should be set without any refund in order to simplify processing. Although a fixed fee system would be less complicated, it is felt that persons who have not received a reexamination in response to their request should not be required to pay the same amount as those who had the reexamination requested. No comments were received concerning the amendments to paragraphs (a) and (b) of section 1.26 which reorganize some of the wording and raise the minimum refund without specific demand from ten cents to fifty cents.

Environmental, Energy, and Other Considerations.

The rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354).

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291.

Amendment of Regulations

For the reasons set out in the preamble and under the authority given to the Commissioner of Patents and Trademarks by 35 U.S.C. 6 and 41, Part 1 of Title 37 CFR is amended as set forth below.

1. Section 1.21 is amended by adding a new paragraph (x) to read as follows:

§1.21 Patent and miscellaneous fees and charges

* * * * *

(x) To file a request for reexamination—$1,500.00

2. Section 1.26 is revised to read as follows:

§1.26 Refunds.

(a) Money paid by actual mistake or in excess, such as a payment not required by law, will be refunded, but a mere change of purpose after the payment of money, as when a party desires to withdraw his application or to withdraw an appeal, will not entitle a party to demand such a return. Amounts of fifty cents or less will not be returned unless specifically demanded within a reasonable time, nor will the payer be notified of such amount; amounts over fifty cents but less than one dollar may be returned in postage stamps, and other amounts by check or, if requested, by credit to a deposit account.

(b) Refund of a portion of any international search fee paid to the Patent and Trademark Office may be made where the prior art search made during the subsequent examination of a national application is wholly or partly based on the earlier international search made in the international application for which the search fee was paid. The amount of the refund will be as determined by the examiner according to the value of the prior international search made by the Patent and Trademark Office as an International Searching Authority, as 90 percent, 45 percent, or 0 percent of the international search fee. If the amount of the refund is not a multiple of $5, it will be rounded to the next higher multiple of $5. (Note §1.446 for refund of the search fee in an international application.)

(c) If the Commissioner decides not to institute a reexamination proceeding, a refund of $1,200.00 will be made to the requestor of the proceeding. Reexamination requestors should indicate whether any refund should be made by check or credit to a deposit account.

Extension of Time for Filing Notices of Opposition

By means of an Official Gazette Notice dated January 22, 1981, the Patent and Trademark Office announced that (1) the automatic 14-day extension of filing Notices of Opposition to registration of marks published in the Official Gazettes dated May 20, 1980 thru December 30, 1980 would not be continued into calendar year 1981 and (2) extensions would be granted, as necessary, only on an issue-by-issue basis.

Continued difficulties with printing and mailing of the Official Gazette have made advisable a modification of the policy announced in the Notice dated January 22, 1981 and the reinstatement of the automatic 14-day extension. Therefore, beginning with the Official Gazette issue dated January 13, 1981, a Notice of Opposition to registration of any mark appearing in the Offical Gazette will be considered timely if filed within 44 days after the date on the cover of the Official Gazette in which the mark appears.

This Notice will be printed in each succeeding issue of the Official Gazette, and the announced 14-day extension will continue to apply unless specifically terminated or modified by subsequent Notice.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
